**System and method for internet \*auction\***

Abstract (Basic):

... A system and a method for the Internet \*auction\* are provided to make a user buy a bidding article before the closure of the \*auction\* and compensate the difference between the bidding price and the paid article price after fixing...

... The Internet \*auction\* system comprises an \*auction\* DB(120), an \*auction\* system(110) linking with the DB, an \*auction\* operation server(100) including the DB and the \*auction\* system and providing the wire/wireless communication environment, and a bank BMS for confirming the reception of the transfer from a winning bidder by linking with the \*auction\* system. A PG server(300) of an electronic payment cooperating company provides a payment service through a payment tool by linking with the \*auction\* operation server. The \*auction\* DB(120) stores and manages the member information, the \*auction\* registration information, the bidding information, the \*auction\* management code information, the delivery information, the \*instant\* \*purchase\* information, the price payment information and so on...

...Title Terms: \*AUCTION\*

On-line \*auction\* method for product sales, involves providing dynamic  
feedback to potential buyers during \*auction\* and registering buyers for  
automated payment of purchased product at current price

Abstract (Basic):

... Information about products to be \*auctioned\* are stored in a  
database. The current price of the product is displayed, during  
\*auction\*. As the \*auction\* time decreases, the price of the product is  
decreased. The product quantity is decreased if any product is  
purchased by the potential buyer. Dynamic feedback of \*auction\* is  
provided to the buyer.

\* ... the product. An INDEPENDENT CLAIM is also included for a web  
site for on-line \*auctioning\* of product...

...Allows the users to participate in \*auction\* and provides real time  
dynamic feedback of sales as they are indicated many times, within last  
minutes of \*auction\*, thereby provides an excitement for purchasing the  
products. The authorization of the \*purchase\* is \*immediately\*  
confirmed to the user, due to dynamic feedback. The dynamic feedback  
also reduces complexity in transaction during the \*auction\* by  
elimination. The user can commit to purchase the product after knowing  
the entire costs. The user is excluded from the \*auction\* process once  
he purchased the product, thus the least price is not known to the  
user. The \*auction\* system tracks the price demand nature of the  
product to provide marketing information to manufacturers...

...Title Terms: \*AUCTION\*;

Abstract: \*Online\* \*auction\* sites may soon change the way manufacturers of all stripes \*buy\* parts and services. \*Now\* businesses increasingly view the process of bidding via \*Web\* browser as an efficiency booster. \*Online\* \*auctions\* can attract bidders \*worldwide\*, regardless of where the goods physically reside. The parameters for acceptable bids can be spelled...

\*Auctions\* for Students at Nearly 1000 Schools

... school. With their busy lifestyles, it was also hard for students to coordinate schedules to \*buy\* and sell products. \*Now\*, StudentAuction.com makes buying and selling everything from textbooks to computers simple and convenient."

Unlike other \*Internet\* \*auctions\*, StudentAuction.com is a free service that eliminates the hassle and shipping costs necessary in...

... and by state, and make arrangements to see items for sale before even placing a \*bid\*, ensuring a \*higher\* \*level\* of integrity in transactions.

"\*Online\* \*auctions\* work well and are immensely popular, but none specifically target college students like StudentAuction.com," said Weihmiller. "StudentAuction.com brings easy-to-use and entertaining \*online\* \*auction\* sites to the market most willing to use the \*Internet\* to buy and sell -- college students. What sets StudentAuction.com apart from other \*online\* \*auction\* sites is that we anticipate the growing needs of our customers and plan to add...

TEXT:

...sites have yet to conquer the 24- to 48-hour waiting period," he says.

The \*auction\* angle

According to \*Internet\* industry analyst Keenan Vision, more than \$3.8 billion worth of goods were purchased at \*online\* \*auctions\* in 1998. That number is expected to rise to \$129 billion by 2002. This growth...

...which specializes in providing tools and services that give bidders a competitive advantage in the \*online\* \*auction\* process. The site enables users to access millions of items listed at leading, person-to...

...searching for the best deal.

Put simply, Bidder's Edge links to about 200 different \*online\* \*auction\*

sites--anything from Dell to Sharper Image. "Our site is geared toward buyers, and a...

...expanding in such a way that a buyer may have started using our service to \*buy\* computers, but \*now\* they're also buying sporting goods and other items at auctions."
